Mini Kitchen Combination Sets - Additional information.

Colours

We supply MK 766 in white, and MK 103-11 & 22 in black & white. These colours can be changed to any of the choices in the picture on a minimum order of one forty ft container

Practical handles on sides

The Mini Kitchens can easily be moved and lifted, with two handles on both sides of each unit.

Packaging

Our Mini Kitchens are packed in cartons onto pallets. The units are delivered assembled and are ready to be connected to the plumbing, and electrical systems.

Adaptation to national standards

Individual customizations will be made according to national socket standards. Further adaptations are subject an agreement between my company and the client before orders are progressed.

Warranty & replacement

To be negotiated with clients and depending on type of contract either for delivery or delivery installed and maintained.

Certification

All the plumbing and electric parts have CE and ROHS certification.
